AUSTRALIA

A) What do you know about Australia?

Write down two things about:

- **The people**
- **The animals**
- **The climate**
- **The cities**

B) Read the text. Check your ideas.

Australia is the sixth largest country in the world.

However, less than 20 million people live there. The first people in Australia were Aborigines, but today they are only 1.5% of all Australians.

Most of the people are descendants of British settlers. In recent years a lot of people have come from other European countries and from Asia.

The climate in Australia is usually very warm, so Australians love sport and other outdoor activities. Swimming, scuba-diving, surfing and cricket are very popular.

A lot of Australia's animals, like the kangaroo, the koala and the platypus are unique. A

The largest city also has

Most Australians live in the south east corner between Sydney and Melbourne. This is because 0% of the country is dry. Australians call this dry area "the outback".

There are some huge farms here with millions of sheep and cattle. The children on these farms can't go to school because the nearest town is too far away. They study at home and they talk to their teacher by radio.

Australia is a rich country. Its farms produce meat, fruit, vegetables, wool, cereals and wine. There are lots of mines, too. They produce gold, silver, iron, diamonds, copper and many other things.

Reef. This is the largest coral in the world
